SUMMARY

As a third-year Computer Science student specializing in Intelligent Systems at Binus University, currently working part-time as a Programmer in the university's IT Division. Experienced in software development and passionate about Artificial Intelligence, with a strong interest in building software and intelligent solutions while continuously expanding my technical skills in software engineering, AI, and machine learning.

SKILLS

- Programming Languages: Python, JavaScript, TypeScript
- Web Development: HTML, CSS, React.js, Node.js
- AI: Machine Learning, Deep Learning, Computer Vision, OpenCV, PyTorch
- Database: SQL Server
- Version Control: Git, GitHub
- Software Tools: Visual Studio Code, Visual Studio, Google Colab, Streamlit, Figma, SQL Server Management Studio (SSMS)
- DevOps: Azure DevOps
- Problem Solving: Debugging

WORK EXPERIENCE

Programmer | IT Division, Binus University **Mar 2026 - Present**

- Collaborated with team members to develop and implement new features across frontend and backend systems.
- Resolved production issues by analyzing, debugging, and fixing software defects.
- Prioritized and completed development tasks within established project timelines.

EDUCATION

Bina Nusantara University **Sept 2024 - Present**

Computer Science – Specialization in Intelligent Systems

SMA Sutomo 1 Medan **Jul 2021 - Mar 2024**

CERTIFICATIONS & CREDENTIALS

- Python (Basic) **Oct 29 2026**
- SQL (Basic) **Sep 26 2026**
- CSS (Basic) **Sep 26 2026**
- Use Machine Learning APIs on Google Cloud Skill Badge **Aug 12 2026**
- Microsoft Certified: Azure AI Fundamentals **Mar 16 2026**
